Subject: Proposed raise in rates by Duke Energy.

The raise seems to be due to abandonment of low cost coal generation--BY OBAMA'S DECREE'S. (Clean energy / cap & trade ????)

WE INTEND TO KICK OBAMA OUT & REVERSE THIS DESTRUCTIVE POLICY.

HOLD UP THE INCREASE TIL WE CAN ACT !!!

The economy can not take this huge increase !!

Alcoa is also going to shut down a smelting plant, due to high electric rates!
